

KEEP YOUR BENEFITS SAFE!

LOST BENEFITS ARE NOT REPLACEABLE!

www.ebtedge.com | 888-997-9333

Ways to keep your Nutrition and Cash Assistance Benefits safe:

-  **Keep** your PIN secret and do not put it in any place visible on your card.
-  **Change** your PIN number often, at least monthly before your new benefits come.
-  **Check** your balance often.
-  **Report** lost or stolen cards immediately.
-  **Do not** keep a large balance in your EBT account.

Ways to restrict the use of your card!

Transaction restrictions are available for cardholders through ebtedge.com or through the **ebtEDGE** mobile app. FIS (AZ's vendor service) can instruct cardholders on the transaction restriction process, but only the cardholder can restrict transactions.

-  Freeze your Electronic Benefit Transfer (EBT) card when not in use to stop new purchases and pin changes. You would be able to unfreeze your card at any time with a few simple keystrokes.
-  **Block Out-of-state Transactions**
 - Any Point-of-sale transaction that originates from a store outside of the cardholder's state.
 - Internet purchases with a delivery address outside of the cardholder's state.
-  **Block Internet Transactions**
 - This will block any transaction with the internet as the source of the transaction.

This institution is an equal opportunity provider.
